Cucumber features

Balloting

In order to elect candidates to office
As a registered voter
I want to cast a ballot

Background

Given "George Washington" is running for "President"
And "John Adams" is running for "President"
And "Alexander Hamilton" is running for "Treasury Secretary"
And "Oliver Wolcott, Jr." is running for "Treasury Secretary"
And voting booth 1 is assigned to "Tom Smith"

Scenario

Casting a ballot increments votes

Given "George Washington" is running for "President"
And "John Adams" is running for "President"
And "Alexander Hamilton" is running for "Treasury Secretary"
And "Oliver Wolcott, Jr." is running for "Treasury Secretary"
And voting booth 1 is assigned to "Tom Smith"
When I use voting booth 1
And I start voting
And I acknowledge that my name is "Tom Smith"
And I acknowledge the instructions
And I select "George Washington" for "President"
And I select "Oliver Wolcott, Jr." for "Treasury Secretary"
And I cast my ballot
Then I see an indication that my ballot was cast
And "George Washington" has 1 vote
And "John Adams" has 0 votes
And voting booth 1 is inactive

Voter sees previous selections

Given "George Washington" is running for "President"
And "John Adams" is running for "President"
And "Alexander Hamilton" is running for "Treasury Secretary"
And "Oliver Wolcott, Jr." is running for "Treasury Secretary"
And voting booth 1 is assigned to "Tom Smith"
When I use voting booth 1
And I start voting
And I acknowledge that my name is "Tom Smith"
And I acknowledge the instructions
And I select "George Washington" for "President"
And I select "Oliver Wolcott, Jr." for "Treasury Secretary"
And I go to the previous screen
Then I see that I selected "Oliver Wolcott, Jr." for "Treasury Secretary"
And I go to the previous screen
Then I see that I selected "George Washington" for "President"
